

Refuse To Quit!

You will never win in network marketing if you give up. The only thing you learn from that is how much easier it is to quit the next time!

Set a goal, for the day, for the week and for the month. Be practical. Don't set goals higher than you can realistically achieve.

As you accomplish your modest goals, you can begin to increase the challenge. Before you know it, you will become a real winner!

Develop and maintain a positive attitude! One way to achieve this is to associate with positive people. There are very few monuments or statues erected to cynics or critics.

Do you feel under pressure? Then take a day off, clear your mind, and you can start again.
